

## FULLY HAMMERLESS SOLUTION FOR SMALL CONSTRUCTION MACHINES

### COMET System for Excavators <15 t, Mini Loaders and Backhoe Loaders

- Unique and fully hammerless tooth system.
- Easy 2-step assembly for safe and quick change-outs.
- Optimized wear resistance for longer wear life.
- Range of tooth and adapter designs for all types of construction applications.
- Available in sizes 5, 8, 10 and 15.

EXCAVATOR <15T

MINI LOADER

BACKHOE LOADER

## Benefits and Features

### SHORT AND SAFE DOWNTIMES

Thanks to the **fully hammerless locking**, tooth change-outs are quick and safe in only **two easy assembly steps**. It is intuitive and an elastomer retainer with flap retention prevents tooth loss.

### HIGHER PRODUCTIVITY

The **self-sharpening tooth designs** offer a high level of penetration throughout their wear life and the **reversible teeth** allow an even longer-lasting digging performance.

### LONGER OPERATIONAL TIME

The system has been designed to **optimally protect adapter, locking and welding seams** from wear caused by material flow. This makes it more resistant and increases wear life.

### MAXIMUM RELIABILITY

A **30% larger nose contact area** provides more tooth-adapter stability and results in less plastic deformation while also increasing the wear life of the adapter.

# Find Your Tooth Design

COMET					
TOOTH DESIGN					
	FLARED (F)	LONG (L)	UNIVERSAL (U)	VECTOR (V)	DOUBLE VECTOR (W)

IMPACT	●●○○	●●●○	●●○○	●○○○	●○○○

## Chose Your Adapter

### CENTRAL (WC)

Suitable for excavators and loaders working in more demanding and abrasive applications.

### UNIVERSAL (UC)

Versatile weld-on adapter especially for small excavators working in low impact applications.

### FLUSH (FC)

Especially designed for loaders working in cleaning jobs where the surface must be left smooth.
